NEW PROGRAM!

EXPLORING PLANNING CAREERS

Exploring Planning Careers (EPC) is a program designed to introduce undergraduate students to the planning profession.

You might know already that a planning career is in your future. Or maybe you're majoring in a similar career track – something like geography, landscape architecture or public policy, and are curious about planning. Then again, maybe you don't have any idea at all what planning is...yet.

APA-NC has created this program to encourage a broader, more diverse student body to consider a career in planning.

Students participating in the program will be matched with planners working in a range of specializations - land use and environmental planning, urban design, housing, transportation, community engagement and beyond. You'll meet as much as you and your professional match would like – ideally once or twice a month.

If you would like to learn more about the program or a career in planning, please complete the form located at this address: https://forms.gle/d8mJtQo95LGZK4aF7.

To find out more, please contact the Education and Outreach Team:
John Anagnost (john.anagnost@raleighnc.gov) or
Charles Dillard (Charles.dillard@raleighnc.gov).
